Prominent Coffee Farmer Died Last Friday Night

Mr. L. Berry Clark, prominent farmer and citizen of Southwest Coffee, died at his home on last Friday night. Mr. Clark had been in bad health for several months, but his death came as a great shock to his relatives and friends. He was a splendid citizen and his passing will be deeply regretted by those of friends throughout the county. Funeral services were held at Cool Springs Church, Saturday afternoon, and the body was laid to rest there. Mr. Clark is survived by his wife, Mrs. Ida Clark, and two sons and two daughters, namely: T. T. Clark, of Opp, Fulton Clark, of Elba, Mrs. Gordon Clark, of Elba, and Mrs. Leonard Harrison, of Opp.

A UNION MEETING

In the 17th chapter of John we find where Christ prayed for his people to be in unity all as one. So we find too much selfishness between the people.

Therefore, we are going to have a union meeting at the Elba Church, on the Florida road, at Bethel Church, the meeting will be conducted by Rev. W. R. Quinn, the evangelist, who says he will not preach on doctrine of other churches, but will only preach Jesus Crucified. Everybody is invited to come and take part.

Miss Hazel Bonneau, student at Troy Teachers College, spent the weekend with relatives in Elba. Mr. C. G. Carby.

Mr. C. G. Carby, of Columbus, Ga., is visiting friends and relatives here.

Miss Della and Debbie Lee, Grissett, of Enterprise, are visiting Miss Elvie Lee.

I am still running a nice, clean ROOMING HOUSE in Dixie, Dothan, Ala. Beds 50 cents for each person. J. A. Stephens.

Mr. C. N. Smith and Miss Goldie Rowe visited Mrs. M. A. Kirkland on Troy, Wednesday.

Miss Katherine Lee is visiting friends in Opp.

Unusual number of ball and roller bearings used in the new Ford

NEW FORD SPORT COUPE \$550
(O. P. R. Dealer, also change for freight, license, bumpers and spare tire extra)

FRictionless ball or roller bearings are used at every point in the new Ford where they will contribute to smooth operation and long life.

Spiral roller bearings, for instance, are used in the rear hub and on the drive shaft at the universal joint. Taper roller bearings are used in the front wheels. Steering is easier because of the roller thrust bearings on the spindle bolts.

A ball thrust bearing is used for disengaging the clutch and the front end of the clutch shaft is carried in a radial ball bearing in the flywheel. Another reason for the use of ball and roller bearings in the transmission.

Throughout the new Ford you find this same quality and careful attention to every detail that contributes to good performance. In the words of the experienced mechanic, "the new Ford is a sweet mechanical job."

Note these low prices:
loadster, \$450. Phaeton, \$460. Tudor Sedan, \$525. Business Coupe, \$525. Coupe, \$550. Sport Coupe, with undercoat, \$550. Fordor Sedan, \$625.

RINGSBORO-FRAZER—

A marriage which will be of much interest to friends was that of Dr. W. M. Ringsboro, of Elba, and Miss Mary Emma Frazer, of Lafayette. The wedding occurred on Wednesday, July 10th, at the home of the bride, and was a very quiet affair.

The bride is a daughter of Mr. and Mrs. J. F. Frazer, of Lafayette. She is a very lovely young woman, and has a pleasing personality which has won for her many friends everywhere she is known. The groom has made his home in Elba for several months where he is pursuing dentistry, and during his stay here has made scores of friends.

The bride and groom returned to Elba the latter part of last week after a short wedding trip, and are now at home in an apartment at the residence of Mrs. W. P. Boyd, on Davis Street.

Mr. and Mrs. Almon Strain and Miss Madeline Strain went to Troy shopping Friday.

Miss Lillian Rowe, from Troy Normal, spent last weekend with her parents.

Miss Mabel Burdshaw, of Headland, is the guest of Mr. and Mrs. E. C. Connor, this week.

Mr. Harris Winston, of Pensacola, Fla., was the guest of Walter Whitman, Jr., the first of the week.

Mrs. Wesley Ham and children have returned from Starkville, Miss., where they visited Mrs. Ham's brother.

Mr. and Mrs. Elwood Taylor and daughters, Helen and Elizabeth, of Birmingham, were guests of Mr. and Mrs. J. W. English this first of the week.

River Falls Power Co. Wins Over Ala. Power

MONTGOMERY, Ala., July 16.—The Alabama Power Company has been permitted to construct a transmission line into the town of Coffee Springs. Members of the town council came before the Public Service Commission Monday and announced that a franchise previously voted to that the power company had been revoked. This clears the way for the construction of a transmission line by the River Falls Power Company.

The two companies were in a controversy over rival claims, each contending that it had the legal right to serve the town. The Public Service Commission heard the evidence of both companies for certificates of convenience and necessity two weeks ago. The ending of the controversy and the withdrawal of the franchise voted to the Alabama Power Co., means that the company will be able to proceed with the construction of the line.

Franklin stated Tuesday morning that the row started when Cox accused him of saying that he (Cox) had stolen some clothing. Franklin says that he denied this, and that Cox then started to curse him. According to Franklin they were quieted down until the conclusion of church services, and at the finish of the services he was walking home. He states that Cox was feeling better, jumped over a fence and began to beat him. Franklin also stated that several boys who were with him, jumped over the fence and began to beat him. He states that he then drew his knife and stabbed Cox. Franklin states that there had been no ill feeling between them until this time. He states that the result of Cox's anger over the alleged accusation that he had stolen the clothing.

It is understood that the work will be begun at the corporate limits of Elba. The State will send about 100 convicts to Elba, and the crew will have about 60 miles, together with other road-building equipment.

When this road is completed, it will be one of the nearest routes from Elba to Montgomery. The distance from Dothan to Montgomery will be about 20 miles less by Elba and Enterprise than by Ozark and Troy. If this is true, then it is possible that much of the Bee Line traffic will pass through this town. When completed, this road will be a great asset to the town of Elba.

Miss Valerie Lee, of Enterprise, visited her aunt, Mrs. J. W. White, Saturday.

Escor Marley, of Brundage, spent Sunday in Elba with relatives.

Messadmes W. O. Vaughn and E. S. Brock went to Montgomery shopping Monday.

Mr. and Mrs. M. C. Ross and children spent Saturday and Sunday at Sea Grove, Fla.

Mr. J. C. Moxieck and Miss Salie Collier visited in Dothan last Friday.

Mr. and Mrs. J. M. Bonneau and children, Jake and Corrine, are spending the week at Pablo Beach, Florida.

Mr. H. M. Wynne and son, Henry Marshall, Jr., are visiting Mrs. Wynne's brother, Mr. Henry D. Jones.

Mr. L. W. Jones and son, William, of Bainbridge, Ga., are visiting relatives in Elba.

Mrs. Claude Griffin and two children have returned from a visit to her parents at Panama City, Fla.

Mrs. P. A. Symonds and Mrs. J. L. McLeod, of Marianna, were guests of friends and relatives in Elba the first of the week. Little Miss Margaret, who has been visiting in Elba, for several days, returned home with them yesterday.

A party composed of Mr. Henry D. Jones, Mrs. H. M. Wynne and son, Henry Marshall, Jr., Misses Nannie Lou Ellenberg and Maude and Myrtle Cooper, Mr. O. Dowling and family, Mr. Lawson Spurlin and family and Mr. and Mrs. Arthur Boutwell, are spending the week camping at Sea Grove, Fla.

Methodist Pastor Goes To Hospital For Six Weeks

Physicians have advised Rev. E. B. Paul, pastor of the Elba Methodist Church, that the condition of his health requires that he give up his pastoral duties for at least six weeks. Rev. Paul announced from his pulpit Sunday morning and evening that he would go to a Montgomery hospital for treatment.

During the pastor's absence, arrangements are being made by the pulpit filled at each Sunday morning service by some visiting preacher. The absence of the pastor from the church will have charge of the evening services. By past performance, these young folks have demonstrated that they are capable of furnishing programs well worth anyone's attention.

The sympathy and best wishes of the whole community go out to Brother Paul in his affliction.

Methodist Pastor Goes To Hospital For Six Weeks

Physicians have advised Rev. E. B. Paul, pastor of the Elba Methodist Church, that the condition of his health requires that he give up his pastoral duties for at least six weeks. Rev. Paul announced from his pulpit Sunday morning and evening that he would go to a Montgomery hospital for treatment.

BETTER COWS

Elsewhere in this issue of The Clipper appears a request by Mr. W. M. Brunson, local editor, calling a meeting of all citizens of this community who are interested in better cows.

We understand that Mr. Brunson has volunteered his services in an effort to place 1,000 good milk cows in this section. He has a plan whereby he says that every man in the county may own a number of good milk cows, and at a very small expense.

He also plans for the man or woman who has no money at all, by which they, too, may get some high grade cows.

We understand that this is a movement for the good of the community and is not for profit to anyone except the one who gets the cow. Not a penny of profit is to be made by anyone connected with this work.

Mr. Brunson has been very much interested in good cows for some time, and he thinks that he can be of help to his fellow citizens, and is taking up this work as a hobby, with a goal of 1,000 good cows in and around Elba in ten years.

He says that it can be done and if he receives the proper cooperation, we feel that he will put it into effect and that it will be two thousand instead of one.

A few thousand good milk cows properly cared for and milked would bring more cash money to the farmers of this section than they are now getting for cotton.

It would be easier work and would also build up the soil so that farmers would not need so much commercial fertilizer. We hope that every farmer within ten miles of Elba will be at this meeting and that this undertaking will be a great success.

If it is put over, as it can be done, it will mean a new day for this section. It will mean more trade for the merchants, more cash for the farmers, more pleasure for the homes.

The Clipper has agreed to give a corner in this paper to be used by Mr. Brunson for giving the information about this business. Beginning next week, we will have a block in one corner of this paper called the "COW PEN," and in this section he will give out information as to the success of this work.

Really, we are surprised at the way a lot of Southern newspapers are jumping on President Hoover because he has ignored the South in making important appointments on the law enforcement commission, the farm relief board and in his cabinet.

Some of these papers cite as a reason why Mr. Hoover should recognize the South the fact that Virginia, North Carolina and Florida, as well as some of the border states, sent a Republican electoral board to the front, breaking the solid South.

They criticize the president as having no gratitude. Why should Mr. Hoover have given anything to the South for political reasons? We freely grant you that this important and swiftly growing industrial sector has been ignored, and we think the president should divide his appointments so as to have all sections of the United States represented thereby, but as far as giving a political debt to the states in the South, then Republicanism, we cannot agree, and we fancy the president does not see it, either.

Have these papers so soon forgotten the cry that went up from Bishop Cannon and other leaders of the bolters? They did their best to point out, both before and after the election, that they voted for Hoover not because they loved him or the Republican party, but because they hated Gov. Smith and what they alleged he stood for.

The president well knows what these gentlemen said, and he upholds their action at its proper value. He owes the South no political debt. In times past, the South expected nothing from a Republican administration and was seldom disappointed. It need expect nothing from a politician's promise of patronage—Samson Leiger.

The Gulfman County Farm Bureau has purchased 10,000 pounds of vetch seed and 30,000 pounds of Austrian winter pea seed for fall sowing. They are doing this as a part of a regular soil improvement program being sponsored by J. A. Beatty, county agent.

Bids Will Be Opened On New Mobile Bridge

MOBILE, Ala., July 19.—The Dog River bridge, approved today by the War Department, is according to County Engineer J. R. Pacey, 200 yards below the present Dog River bridge and at the mouth of the river. Bids will be opened on the bridge by the county board on August 1, and it is estimated to cost in the neighborhood of \$125,000.

The bridge will be a double leaf bridge with a 245-foot horizontal opening, according to Engineer Pacey. When open, the leaves will stand upright, permitting ships of any height to pass through.

Dog River bridge is part of the \$5,000,000 county road program now being constructed in Mobile and is on what is known as Cedar Point Road.

A list of those comrades of ours from your county whose names, according to our present records, are entitled to appear on the permanent memorial, is printed below. It is hoped that the readers will study this list, and if they find that it is not complete, they will let us know.

Facts Speak Louder Than Claims

1928 was not only the greatest year in Goodyear sales—it was the thirteenth successive year in which more people rode on Goodyear tires than on any other kind!

Sometimes you see a company come to the front for a year or so, but it doesn't hold its lead. So when you see a company rise to leadership in the sales as Goodyear did in 1915—AND THEN HOLD AND INCREASE THAT LEADERSHIP EVERY YEAR THEREAFTER—

You know that they're good!

Isn't that evidence enough to show you why we have picked Goodyear Tires and why you get the best buy of your life when you put them on?

Goodyear tires are made of the finest materials and are built to last. They are the best tires on the market today.

Masked Band Steal Car With \$42,000 in Orleans

NEW ORLEANS, July 19.—Masked bandits stole an armored money truck containing \$42,000 in cash and negotiable checks of the streets of New Orleans Friday and disappeared.

After an all-day search the police had been unable to find any trace of either the robbers or the money car. The only clue they had was a description furnished by the

bank guards, who were thrown off the truck by the bandits and chased into a restaurant while the thieves escaped in the car, firing their pistols as they sped away.

Apparently the robbery had been planned carefully. The truck was making its only round at the branches of the Farmers Bank & Trust Company when it was forced to the curb by a grey sedan, out of which jumped three bandits wearing black hoods over their heads and black raincoats. As they

sprang to the running board of the truck, they let off their pistols. The guards were thrown out as a band of gabriel the wheel of the truck.

County Agent H. H. Best reports that farmers of Washington County are watching for the Mount Vernon fruit fly and hoping they will never see it. The state and federal governments are making a strong effort to keep this pest out of Alabama.

The first occurrence of light in the state was reported by Michael Toney in 1858. Since, local residents have reported beads of light, believing that they had found bituminous coal, but none of these reports have been developed commercially.

According to the bulletin, considerable attention has been accorded recently concerning the possibility of developing light deposits commercially, utilizing it as a fuel for the production of hydroelectric power. Such power plants are said to be in operation in other states at the present time.

There is also a possibility, Barkeley's report says, of its utilization as a fuel for the production of light. It is believed that the light deposits in Alabama are restricted to an area about 24 miles wide which extends through Shelby, Butler, Crawford, Barlow, Pike, Coffee, Monroe, Clarke, Choctaw, Covington and Conecuh counties.

Reports of the condition of the cotton crop in this section are very conflicting. Some farmers say they have good prospects of making a fair yield, while others report that their cotton is shedding badly and will not make much. From these reports, one would be led to believe that this year's cotton crop will be quite "spotted." However, nearly all agree that the corn and peanut crops are looking fine, as are all other kinds of growing things. No danger of man or beast going hungry in Coffee County this year.

CARD OF THANKS

We take this method of thanking our many friends, neighbors and relatives for their kindness during the sickness and death of our dear husband and father, J. D. Clark.

Each act of kindness and each word of sympathy will ever be remembered and appreciated by us.

Mrs. Ida Clark and Family.

H. L. Butler Is Killed In Automobile Wreck

TROY, Ala., July 22.—Hugh L. Butler, of Montgomery, was killed when his automobile went into a ditch on the hill just beyond Orion Sunday night. The body was not removed from the car until early Monday morning. The car, after hitting a sign post on the hill, careened into a ditch, pinning the body of Mr. Butler against an embankment. His body could not be seen by passersby, many of whom saw the car during the night.

The body was brought to the Rhoads Funeral Home and prepared for burial. The car was also picked up and brought into town.

The accident happened just over the line in Montgomery County, and Corner Duffly came to Troy to investigate it. After a thorough examination of the body at the funeral home, the coroner stated that he was of the opinion that Mr. Butler's death was accidental, and that he probably died of strangulation, caused by his face being pressed between the car and an embankment.
